VAT in the Digital Age

In 2022 in the VAT Directive 2006/112/EC, the European Commission (EC) announced the adoption of VAT in the Digital Age (ViDA) that demands mandatory intra-community electronic invoicing and B2B digital reporting.

The EC's directive aims to recover billions of VAT lost each year from fraudulent invoices and fraudulent VAT claims. The new legislative package will help Member States prove in real-time the business VAT expected and the business VAT claimed.

The directive details two sections that involve European businesses and their invoicing processes:

- Mandatory intra-community electronic invoicing - All businesses must be able to receive and issue electronic invoices in their intra-community trades.
- Mandatory B2B intra-community digital reporting requirement - Businesses must digitally report each and every intra-community B2B invoice within ten days of issuance.

Originally set for a 2028 launch, the directive's implementation has been postponed to 2030 and beyond following feedback from Member States.

The e-invoicing and e-reporting landscape

In the upcoming years, the e-invoicing and e-reporting landscapes are set to undergo a profound shift driven by the growing adoption of legal e-invoicing requirements by countries across the globe. This regulatory push is compelling businesses to embark on a rapid digitalisation journey, transforming traditional invoicing practices into efficient and automated electronic processes.

It is clear to see the escalating trend over the past decade, where more and more countries are mandating electronic invoicing and electronic reporting.

Technical requirements

- Platform - Central Invoice Platform (CIP)
- Format - UBL 2.1
- Archival period - Minimum 5 years

B2G fiscalization

- Online reporting of all cashless transactions, issued invoices and receipts

B2B fiscalization

- Online reporting of all cashless transactions, issued invoices and receipts

B2C fiscalization

- Online reporting of all cashless transactions, issued invoices and receipts

Banqup Group has a compliant outbound solution

Technical requirements

- Platform - AFIP (managed by ARCA)
- Format - ARCA (AFIP) XML (Comprobante Electrónico)
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - All public bodies and their suppliers

B2B mandates

- Issuing and receiving for all businesses

**Banqup Group has a compliant outbound solution
and is an accredited Peppol Access Point**

Technical requirements

- Platform - Peppol
- Format - While Peppol BIS 3.0 has been the standard, Australia and New Zealand are transitioning to the PINT A-NZ specification. The adoption process began on September 15, 2024, with the PINT format becoming mandatory starting from 15 May 2025.
- Archival period - Minimum 5 years

B2G mandates

- Receiving - All public bodies
- Issuing - No requirements

B2B mandates

- No existing or upcoming mandates

Technical requirements

- Platform - Unternehmensserviceportal, reached via Peppol
- Format - ebInterface 6.0, Peppol BIS
- Archival period - Minimum 7 years

B2G mandates

- Receiving - All public bodies
- Issuing - Economic Operators to the federal domain only

B2B mandates

- No existing or upcoming mandates

**Banqup Group has a compliant
inbound and outbound solution
We are also an accredited Peppol Access Point**

Banqup Group has a compliant inbound and outbound solution

We are also an accredited Peppol Access Point

B2G technical requirements

- Platform - Mercurius, reached via Peppol
- Format - Peppol BIS 3.0, UBL 2.1
- Archival period - Minimum 7 years

B2G timelines

- For all contracts above €3,000

B2B mandates

- Jan 2026 - Mandatory B2B e-invoicing for sending and receiving for Belgian-established and VAT registered companies
- The transaction takes place in Belgium and it is not exempted to art. 44 of Belgium VAT code

B2B technical requirements - “Dual-Track”

- Default network and format - based on Peppol
- Second “track” will allow taxpayers to opt-out from the default network, based on mutual agreement, and use another means for e-invoicing, i.e. EDI.

Additionally

- Non-resident Belgian VAT-registered businesses are not required to comply with the 2026 e-invoicing mandate.
- By January 2028, Belgium plans to introduce near real-time e-reporting, integrating tax authorities into the e-invoicing process.

Banqup Group has a compliant outbound solution

Technical requirements

- Platform - SIAT
- Format - XML 1.0 UTF-8 with multiple document types, depending on the industrial sector
- Archival period - Minimum 10 years

B2G mandates

- No existing or upcoming mandates

B2B mandates

- Rolling out in stages, based on different tax groups
- Invoices must include the Código Único de Facturación Diaria - CUFD issued daily by the SIN (Servicio de Impuestos Nacionales)

B2G mandates

B2B mandates

B2C mandates

The Federation of Bosnia and Herzegovina (FBiH) formally adopted a new draft law in November 2025, proposing mandatory e-invoicing and real-time reporting for Business-to-Business (B2B), Business-to-Government (B2G), and Business-to-Consumer (B2C) transactions.

- The law is currently under parliamentary debate for final approval in early 2026.
- By-laws for the regulation are expected to be available following the parliamentary adoption.
- Official technical requirements for formats and protocols are not yet publicly available.

Bulgaria

SAF-T known as Standard Audit File for Tax.

The Bulgarian National Revenue Agency (NRA) has introduced a draft law mandating the submission of SAF-T reports. First phase is planned to start in January 2026.

Banqup Group has a compliant outbound solution

Technical requirements

- Platform - Servicio de Impuestos Internos (SII)
- Format - SII XML (DTE)
- Archival period - Minimum 6 years

B2G mandates

- Receiving - All public bodies
- Issuing - All public bodies and their suppliers

B2B mandates

- Issuing and receiving for all businesses

Technical requirements

- Platform - Golden Tax System
- Format - e-fapiao - fully digitalised special VAT e-fapiao and fully digitalised general VAT e-fapiao
- Archival period - Minimum 10 years

Mandates

- Nationwide rollout of fully digitalized e-fapiao, making e-invoicing mandatory for new taxpayers in both B2B and B2C sectors.
- In 2025: Fully Digitalized Electronic Invoice (FDEI) - also known as e-fapiao—across all provinces

Banqup Group has a compliant outbound solution

Technical requirements

- Platform - Dirección de Impuestos y Aduanas Nacionales (DIAN)
- Format - UBL 2.1 + DIAN extensions
- Archival period - Minimum 6 years

B2G mandates

- Receiving - All public bodies
- Issuing - All public bodies and their suppliers

B2B mandates

- Issuing and receiving for all businesses

Additionally

- Pre-Validation Model: Colombia employs a pre-validation system where electronic invoices must be submitted to the DIAN for validation before being issued to recipients. This ensures compliance and authenticity of the invoices.

**Banqup Group is an accredited
Peppol Access Point**

Technical requirements

- Platform - Servis eRačun za državu, reached via Peppol
- Format - Peppol UBL 2.1
- Archival period - Minimum 11 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies (including international suppliers)

B2B mandates

- The Fiscalization 2.0 project officially launched on January 1, 2026
- Mandatory for all VAT-registered businesses in Croatia to issue and receive structured e-invoices for domestic B2B transactions

Technical requirements

- Platform - Národní elektronický nástroj (NEN)
- Format - EDIFACT or UBL 2.1
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - No requirements

B2B mandates

- No existing or upcoming mandates

Banqup Group has a compliant outbound solution

Technical requirements

- Platform - NemHandel implementing Peppol
- Format - OIOUBL, Peppol BIS 3 UBL
- Archival period - Minimum 5 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- No B2B mandate.
- As of January 1, 2026, all businesses with an annual turnover exceeding DKK 300,000 for two consecutive years must use a certified digital bookkeeping system

Technical requirements

- Platform - DGII
- Format - e-CF XML
- Archival period - Minimum 10 years

B2G mandates

- De facto requirement: All public entities reject paper invoices for payments (DGCP/DGII Circular Nov 2025); suppliers must be DGII-approved e-emitters to get paid.
- Receiving - All public bodies
- Issuing - Mandated taxpayer groups according to the B2B schema

B2B mandates

- 15 May 2024 - Large national taxpayers
- 15 November 2025 - Large local and medium-sized taxpayers
- 15 November 2026 - Small, micro and unclassified taxpayers
- Option for voluntary adoption by all taxpayers prior deadlines

Technical requirements

- Platform - Egyptian Tax Authority portal (ETA)
- Format - JSON and XML
- Archival period - Minimum 7 years

B2G mandates

- Receiving - All public bodies
- Issuing - All public bodies and their suppliers

B2B mandates

- Issuing and receiving for most businesses

Egypt is on our future roadmap

Banqup Group has a compliant outbound solution

Technical requirements

- Platform - Estonian e-invoice network and Peppol
- Format - National XML or EN16931 OpenPeppol BIS3
- Archival period - Minimum 7 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- 1 July 2025 - “the buyer right” to require an e-invoice from a supplier in a format mutually agreed or by default the EN 19631

Banqup Group has a compliant outbound solution

Technical requirements

- Platform - Handi
- Format - TEAPPSXML and Finvoice
- Archival period - Minimum 7 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies
- Sending and receiving is mandatory

B2B mandates

- No existing or upcoming mandates
- "Right to request" - since 2021, businesses with an annual turnover above EUR 10,000 may demand an e-invoice from their suppliers
- Unique "Request-based mandate" - mandatory if the buyer requests it (and buyer turnover above EUR 10,000).

**Banqup Group has a compliant
inbound and outbound solution**

Our solution for France is officially PA-certified

Technical requirements

- B2B: Mandatory exchange via a certified "*Plateforme Agréée*" (PA).
- B2G: Continued use of the Chorus Pro infrastructure (integrated with the PPF).
- "*Portail Public de Facturation*" (PPF) Role: Functions as the National Directory and central data concentrator for tax reporting.
- Format - B2G / B2B - Factur-X, UBL 2.1 and CII
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - All public bodies and their suppliers

B2B mandate deadlines

- 2025 - Voluntary pilot period for all companies
- September 2026 - All businesses to receive e-invoices and large and mid-sized companies to issue e-invoices and comply with e-reporting
- September 2027 - SMEs and micro-companies fall into scope

B2B mandate overview

- B2B e-invoices to be transmitted via accredited service providers (PA)
- B2C and cross-border B2B invoice data, as well as certain payment data to be submitted under an e-reporting obligation

Banqup Group has a compliant inbound and outbound solution

We are also an accredited Peppol Access Point

Technical requirements

- Platform - Varies per state
- Format - XRechnung or ZUGFeRD
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- January 2025 - E-invoicing reception for all businesses
- January 2025 to December 2026 - Voluntary e-invoice issuance
- January 2027 - E-invoice issuance for businesses with a turnover exceeding €800,000
- January 2028 - E-invoice issuance for all other businesses
- January 2028 - Estimated e-reporting in place for domestic and international transactions
- Most likely implementing the DCTCE model

Technical requirements

- Platform: myDATA (Central Portal) / KE.D. (Interoperability Center for B2G).
- Format: EN 16931-1 compliant.
- B2G: Peppol BIS 3.0 (with Greek CIUS).
- B2B: Structured formats (UBL 2.1 or CII) via certified providers or the "timologio" app.
- Archival period: Minimum 10 years

B2G mandates

- Status: Following phased rollout, mandatory for all public contracts above €2,500 as of September 2025.

B2B mandates

- Phase A – Mar 2, 2026: Mandatory issuance for "Large Enterprises" (those with 2023 revenues > €1 Million); grace period until May 3, 2026.
- Phase B – Oct 1, 2026: Mandatory issuance for all other businesses; grace period until October 31, 2026.

E-reporting and e-ledgers mandate (myDATA)

- Mandate: All Greek businesses must transmit "Synopsis" data (summary records) of all revenues and expenses to the myDATA platform.

**Banqup Group has a compliant inbound
and outbound solution**

Compliant real-time reporting solution

Technical requirements

- Platform - NAV Online Számla Rendszer
- Format - FA(3) XML schema (NAV-specific, EN 16931 compatible)
- Archival period - Minimum 8 years from annual financial statement year

B2G e-invoicing mandates

- Receiving - All public bodies
- Issuing - No mandates in place

B2B e-invoicing mandates

- No mandatory B2B e-invoicing currently for the general market
- Sector-specific B2B e-invoicing is mandatory for electricity/natural gas (since Jul 2025) and water utility services (Jan 2026)
- Future plans: Public consultation on a ViDA-aligned B2B CTC/e-reporting hybrid closed Jan 2026; full mandate expected around 2029 (pilot phase likely 2028)

Real-time invoice reporting (RTIR) mandates

- All domestic B2B/B2C invoices must be reported to NAV in real-time (within 5 minutes of the invoice issuance) via API, including summary/core data; full XML submission.

**Banqup Group is an accredited
Peppol Access Point**

Technical requirements

- Platform - Peppol
- Format - Peppol BIS
- Archival period - Minimum 7 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- No existing or upcoming mandates

Technical requirements

- Platform - Invoice Registration Portal (IRP)
- Format - JSON
- Archival period - Minimum 8 years

B2G mandates

- Receiving - No requirements
- Issuing - All businesses exceeding an annual invoicing total of Rs. 5 Crore (about €624,000)

B2B mandates

- Receiving - No requirements
- Issuing - All businesses exceeding an annual invoicing total of Rs. 5 Crore (about €624,000)

**Banqup Group is an accredited
Peppol Access Point**

Technical requirements

- Platform - Peppol
- Format - Peppol BIS
- Archival period - Minimum 6 years

B2G mandates

- Receiving - All public bodies
- Issuing - No mandates in place

B2B mandates

- November 2028 - E-invoicing reception for all businesses
- November 2028 - Mandatory e-invoicing issuance and e-reporting, domestic B2B transactions, for large corporates
- November 2029 - Mandatory e-invoicing & e-reporting, domestic B2B transactions, for all VAT-registered engaged in intra-EU trade
- July 2030 - Full ViDA, mandatory e-invoicing & e-invoicing for all intra-EU transactions

Banqup Group has a compliant outbound solution

Technical requirements

- Platform - SHAAM / ITA Allocation System (clearance model)
- Format - JSON for clearance / Any format + 9-digit allocation number for delivery (e.g., PDF or paper)
- Archival period - Minimum 7 years

B2B / B2G mandates

Allocation number required for VAT deduction:

- May 2024 - Invoices > 25k ILS ("Pilot" = automatic approval)
- January 2025 - Invoices > 20k ILS (real-time-validation)
- Jan 2026 - Invoices > 10k ILS (accelerated timeline)
- Jun 2026 - Invoices > 5k ILS (accelerated timeline)

Notes

Allocation via ITA portal/API required before input VAT deduction allowed. Input VAT is strictly denied without a valid ID.

Banqup Group has a compliant inbound and outbound solution

Technical requirements

- Platform - SdI (Sistema di Interscambio)
- Format - FatturaPA XML
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- Issuing and receiving for all businesses
- Including cross-border transactions. The responsibility is of the Italian business to send the invoices to SdI

B2C mandates

- Issuing and reporting to SdI

Technical requirements

- Platform - Peppol
- Format - Peppol BIS Standard Invoice JP PINT Version 1.0
- Archival period - Minimum 10 years

B2G mandates

- No existing or upcoming mandates

B2B mandates

- No existing or upcoming mandates

e-TIMS Real-time-reporting (RTR) scope

- All taxpayers, irrespectively if VAT or non-VAT registered
- Real-time submission via eTIMS (electronic Tax Invoice Management System)

Mandate overview

- Real-time-reporting based on Electronic tax registers (ETR) or software connected to the Kenya Revenue Authority's systems (iTax)
- ETR or software to sign, to apply unique control code and to generate QR code on the invoice
- Tax invoices validation, encryption, signing, transmission of the invoice data to the KRA and storage of the data
- Supplier's responsibility to deliver the invoice to the final customer

Banqup Group has a compliant
outbound solution

We are also an accredited Peppol Access Point

Technical requirements

- Platform - Peppol
- Format - Peppol BIS 3.0
- Archival period - Minimum 5 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies from 1 January 2025
- E-reporting - B2G, G2G and G2B transactions from 1 January 2026

B2B mandates

- Mandatory B2B e-invoicing and e-reporting to SRS from 1 January 2028

Banqup Group has a compliant
outbound solution

We are also an accredited Peppol Access Point

Technical requirements

- Platform - Peppol, via Lithuania's central platform SABIS (from September 2024)
- Format - Peppol BIS 3.0
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- No existing or upcoming mandates

**Banqup Group has a compliant inbound
and outbound solution**

We are also an accredited Peppol Access Point

Technical requirements

- Platform - Peppol
- Format - PEPPOL BIS
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies and their suppliers
- Issuing - All public bodies and their suppliers (international suppliers in scope)

B2B mandates

- No existing or upcoming mandates

Banqup Group has a compliant outbound solution

Technical requirements

- Platform - Centralised clearance system governed by LHDN
- Format - XML or JSON
- Archival period - Minimum 7 years

B2G mandates

- August 2024:
 - Receiving - All public bodies
 - Issuing - The public bodies' suppliers, according to the B2B roll-out timelines

B2B and B2C mandates

- Centralised CTC model
- 1 August 2024 - Taxpayers with an annual turnover or revenue of more than RM100 million
- 1 January 2025 - Taxpayers with an annual turnover or revenue of more than RM25 million and up to RM100 million
- 1 July 2025 - Taxpayers with an annual turnover or revenue of more than RM5 million and up to RM25 million
- 1 January 2026 - Taxpayers with an annual turnover or revenue of up to RM5 million (interim relaxation period until 31 December 2027)
- NOTE: Taxpayers with an annual turnover or revenue of less than RM1 million are exempted from e-Invoice implementation

**Banqup Group has a compliant
outbound solution**

Technical requirements

- Platform - Large businesses use Proveedores Autorizados de Certificación (PAC) and small businesses use Servicio de Administración Tributaria (SAT)
- Format - CFDI
- Archival period - Minimum 5 years

B2G mandates

- Receiving - All public bodies
- Issuing - All public bodies and their suppliers

B2B mandates

- Issuing and receiving for all businesses

Morocco is working on e-invoicing regulations and expected timeline is:

- October 2024: Initiation of e-invoicing proposals and public consultations.
- October 2025: Completion of system development, followed by a pilot phase to allow businesses to adapt.
- 2026: Full implementation of mandatory e-invoicing for all eligible businesses.

The Netherlands

Banqup Group has a compliant inbound and outbound solution

We are also an accredited Peppol Access Point

Technical requirements

- Platform - Peppol
- Format - Peppol BIS, NL CIUS, SI-UBL
- Archival period - Minimum 7 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- No existing mandates, but the aim is to make e-invoicing mandatory for cross-border transactions within the EU starting July 1, 2030 (ViDA).

**Banqup Group has a compliant
outbound solution**

We are also an accredited Peppol Access Point

Technical requirements

- Platform - Peppol
- Format - While Peppol BIS 3.0 has been the standard, Australia and New Zealand are transitioning to the PINT A-NZ specification.
- Archival period - Minimum 7 years

B2G mandates

- Receiving - Central public bodies
- Issuing - No mandates in place

B2B mandates

- No existing or upcoming mandates

Technical requirements

- Platform – e-Faktura (Centralized government "hub" operated by the Public Revenue Office - PRO).
- Format – Pure XML/UBL structured electronic format (compliant with European standard EN 16931). For in-scope transactions, PDFs are no longer legally valid.
- Archival period – Minimum 10 years (Responsibility rests with the taxpayer).

B2G mandates

- Receiving – Mandatory for all public bodies via the central platform.
- Issuing – Mandatory for all VAT-registered suppliers starting October 1, 2026.

B2B mandates

- Existing – Voluntary pilot phase launched January 1, 2026.
- Upcoming – Full mandatory rollout for all VAT-registered businesses on October 1, 2026. Requires real-time CTC Clearance (validation by PRO before issuance).

**Banqup Group has a compliant
outbound solution**

We are also an accredited Peppol Access Point

Technical requirements

- Platform - ELMA, reached via Peppol
- Format - EHF Billing 3.0 (Norway's name for Peppol BIS Billing 3.0)
- Archival period - Minimum 5 years

B2G mandates

- Receiving - All public bodies
- Issuing - All public bodies and their suppliers

B2B mandates

- No existing mandates.
- A law proposal is being prepared to:
 - Introduce mandatory B2B e-invoicing (using EHF) from 1 January 2027.
 - Introduce mandatory digital bookkeeping systems for all entities subject to Norwegian bookkeeping rules, with full implementation aimed by 2030.

Technical requirements

- Platform: Oman Tax Authority (OTA) - mandatory use of an Accredited Service Provider (ASP) or equivalent channel (5-corner model)
- Format: OTA-specified schema (defined in the draft Data Dictionary, exact schema version subject to final OTA guidance).
- Archival period: Not specified in the current Fawtara guidance.

B2G/G2B mandates

- Government entities must be able to receive e-invoices in line with B2B mandate rollout phases as detailed below.
- G2B transactions are expected to be in scope by August 2028 (Phase 4).

B2B mandates

- August 2026: (Phase 1) Initial implementation for ~100 largest taxpayers.
- February 2027: (Phase 2) Expansion to the remaining large taxpayers expected.
- August 2027: (Phase 3) Mandatory e-invoicing by all taxpayers expected.

**Banqup Group has a compliant
outbound solution**

Technical requirements

- Platform - Large businesses use Operator of Electronic Services (OSE) and small businesses use Superintendencia Nacional de Aduanas y de Administración Tributaria (SUNAT)
- Format - UBL 2.1
- Archival period - Minimum 5 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- Issuing and receiving for all businesses

The Philippines

Technical requirements

- Platform - E-invoicing System (EIS)
- Format - JSON
- Archival period - Minimum 10 years

E-invoice issuance mandatory by December 2026 for selected taxpayers

- Businesses under the jurisdiction of the Large Taxpayers Service
- Businesses engaged in e-commerce
- Businesses engaged in the export of goods and services

Compliance for all other taxpayer groups will follow upon the BIR's system establishment, with subsequent deadlines determined by regulation.

The Philippines extended the initial e-invoicing compliance deadline to the end of 2026 to accommodate taxpayers' operational and system transition requirements.

Poland

Technical requirements

- Platform - PeF (B2G, Peppol based) and KSeF (B2B)
- Format - Peppol BIS 3.0 and XML based FA
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - In line with the B2B obligation

B2B mandates

- 1 February 2026 - For businesses with a turnover exceeding 200M PLN
- 1 April 2026 - Remaining businesses

Banqup Group has an outbound and inbound solution to and from KSeF

We are also an accredited Peppol Access Point

**Banqup Group has a compliant
outbound solution**

Technical requirements

- Platform - eSPap for central authorities, decentralised for the rest
- Format - CIUS-PT
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - Since 2021, gradual roll-out to all suppliers of public bodies, expanding on 1 January 2026 to micro, small, and medium enterprises.

B2B mandates

- No existing or upcoming mandates

Compliance considerations

- Monthly SAF-T billing submissions
- ATCUD Sequential Number - allocated by AT for batches of invoices prior to their issuance
- QR code on paper or PDF invoices
- 1 January 2026 - Qualified Electronic Signatures (QES) on PDF invoices (confirmation of proposed 2027 postponement pending)

Banqup Group has a compliant inbound and outbound solution

Technical requirements

- Platform - RO e-factura
- Format - RO CIUS
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- Mandatory for products that are considered high risk (includes vegetables, fruits, roots, alcoholic beverages, mineral products, construction, clothing, footwear)
- 1 June 2024 - Mandatory e-reporting
- 1 July 2024 - Mandatory e-invoicing with RO-eFactura platform

B2C mandates

- Invoices based on holiday vouchers
- 1 January 2025 - Mandatory B2C e-invoicing with RO-eFactura

Technical requirements

- Platform - FATOORA (ZATCA)
- Format - XML format or PDF/A-3 format (with embedded XML)
- Archival period - Minimum 6 years

Generation phase

Phase 1 (known as the Generation phase) will require taxpayers to generate and store tax invoices and notes through electronic solutions compliant with Phase 1 requirements

Integration phase

- From January 2023
- Rolled out mandate in taxpayers' waves
- Clearance of tax invoices through FATOORA
- Real-time-reporting of B2C invoice to FATOORA

The Kingdom of Saudi Arabia is on our roadmap

**Banqup Group has a compliant
outbound solution**

Technical requirements

- Platform - EFaktura / SEF
- Format - UBL 2.1
- Archival period -
 - B2G documents must be stored permanently
 - B2B documents for a minimum of 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - All public bodies and their suppliers

B2B mandates

- All B2B transactions

Technical requirements

- Platform - InvoiceNow network (Singapore's Peppol-based system)
- Format - Peppol PINT-SG (successor to local Peppol BIS Billing 3.0)
- Archival period - Minimum 5 years

B2G mandates

- No dedicated B2G-only mandate; any B2G use follows the general GST InvoiceNow Requirement for in-scope suppliers.

B2B mandates

- From 1 May 2025: Soft launch for voluntary adoption by existing GST-registered businesses and businesses applying for GST registration on/after 1 May 2025
- From 1 Nov 2025: Mandatory e-invoicing for newly incorporated companies (incorporated within 6 months from the time of application) that apply for voluntary GST registration.
- From 1 Apr 2026: Mandatory e-invoicing for all new voluntary GST registrants, regardless of incorporation date or business constitution.
- From 1 Apr 2028–1 Apr 2031: Gradual extension of the GST InvoiceNow Requirement to all existing GST-registered businesses, so that all GST-registered taxpayers must use InvoiceNow by 1 Apr 2031.

Technical requirements

- Platform - Informačný Systém Elektronickej Fakturácie (IS EFA)
- Format - EN 16931-1
- Archival period - Minimum 10 years

B2G mandates

- Mandatory e-invoicing for B2G and G2G transactions from April 2023.

B2B mandates

- January 2027: Mandatory e-invoicing and real-time digital reporting for domestic transactions.
- July 2030: E-invoicing and e-reporting mandate extends to cross-border supplies.

**Banqup Group is an accredited
Peppol Access Point**

Technical requirements

- Platform - UJP eRačun and Peppol
- Format - eSlog 2.0, Peppol
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- January 2028 - mandatory domestic B2B e-invoicing for all businesses registered in the Business Register of Slovenia

South Korea

Current and upcoming e-invoicing regulations

- Mandatory e-invoicing with clearance reporting model for certain taxpayers: An issued e-tax invoice must be transmitted to the National Tax Service (NTS) within one day of the invoice being issued
- Invoice data is reported to the NTS in XML format
- Invoices and amended invoices (credit and debit notes) are in the scope
- Applies to domestic transactions only. Cross border transactions are out of scope

South Korea is on our future roadmap

Banqup Group has a compliant inbound and outbound solution

We are following the B2B developments and already have a strategy in place so that we are compliant with future regulations

Technical requirements

- Platform - FACe
- Format – Facturae v3.2.2 (B2G) / UBL (B2B – future standard)
- Archival period - Minimum 6 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- E-invoicing under the Ley Crea y Crece (Royal Decree published in BOE-A-2026-7295). The draft Ministerial Order is expected to enter into force on 1 October 2026, defining the operation of the public invoicing platform
- Expected October 2027 (12 months after entry into force): mandatory B2B e-invoicing for businesses with annual turnover > €8M
- Expected October 2028 (24 months after entry into force): mandatory for all
- Facturae will be replaced by UBL (aligned with EU standard EN 16931)

E-reporting

- Near-real-time reporting continues via SII. VERI*FACTU will apply from 2027, with extended deadlines for companies and freelancers
- TicketBAI real-time reporting in Basque country

**Banqup Group has a compliant
outbound solution**

We are also an accredited Peppol Access Point

Technical requirements

- Platform - Peppol
- Format - Peppol BIS
- Archival period - Minimum 7 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- No existing or upcoming mandates

Banqup Group has a compliant inbound and outbound solution

We are also an official network partner of the eBill platform

Technical requirements

- Platform - via Interoperability/Contracted service providers
- Format - swissDIGIN and ZUGFeRD
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All Federal administration
- Issuing - Suppliers to all Federal administration for contracts over the value of 5000 CHF

B2B mandates

- QR-Bill

Technical requirements

- Platform: National e-invoicing system via *Tunisie Trade Net* (TTN) / tax authority e-invoice portal
- Format: National XML e-invoice, digitally signed and transmitted electronically
- Archival period: Typically 10 years in line with general tax record retention

B2G mandates

- Mandatory e-invoicing for all transactions with Tunisian public entities, using the national platform.
- Initially focused on large enterprises (DGE), now treated as a general requirement for suppliers to government.

B2B mandates

- Pre-2026: E-invoicing mandatory for specific B2B sectors (pharmaceuticals and hydrocarbons/fuel, mainly non-retail).
- January 2026: Scope extended to all VAT-liable transactions in goods and services.
- SMEs benefit from a “flexible implementation” approach (phasing/support measures – detailed dates pending from Ministry of Finance).

E-reporting

- Embedded in the e-invoicing process.

**Banqup Group has a compliant
outbound solution**

Technical requirements

- Platform - TRA and Gelir İdaresi Başkanlığı (GIB)
- Format - UBL 2.1 TR
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies and their suppliers
- Issuing - All suppliers of public bodies

B2B mandates

- Issuing and receiving for the majority of businesses

The United Arab Emirates on our roadmap

Technical requirements

- Platform: Federal Tax Authority (FTA) - mandatory use of Accredited Service Providers (ASPs)
- Format: PINT AE
- Archival period: Minimum 5 years

B2G mandates

- Government entities must be able to receive e-invoices in line with B2B mandate rollout phases as detailed below.
- October 2027: Submission of B2G e-invoices by businesses becomes mandatory; deadline to appoint an ASP for B2G e-invoices is March 2027.

B2B mandates

- July 2026: Pilot/voluntary phase begins.
- January 2027: Mandatory e-invoicing implementation for large businesses (\geq AED 50M revenue); deadline to appoint an ASP is October 2026 (extended from the original deadline of July 2026).
- July 2027: Mandatory implementation for smaller businesses ($<$ AED 50M revenue); deadline to appoint an ASP is March 2027.

Banqup Group has a compliant inbound and outbound solution

Technical requirements

- Platform - Peppol
- Format - Peppol and PECOS P2P
- Archival period - Minimum 6 years

B2G mandates

- Only for the NHS
- Receiving - NHS orders must be received electronically and suppliers to the NHS must send their invoices through the PEPPOL network
- Issuing - Mandatory e-order for NHS trusts

B2B mandates

- Mandatory e-invoicing for all B2B and B2G VAT invoices starting in 2029.

E-reporting

- Periodic reporting Making Tax Digital (MTD) - businesses must report their tax in a digital way
- Phased approach for companies until 2026

Technical requirements

- Platform - General Department of Taxation
- Format - XML format
- Archival period - Minimum 10 years

B2G mandates

- Receiving - All public bodies
- Issuing - All suppliers of public bodies

B2B mandates

- Mandatory for all businesses since July 2022

B2C mandates

- E-invoices are permitted from point-of-sale cash registers in certain sectors (e.g., retail, hospitality)

Compliance team

Our **global compliance team** monitors regulatory frameworks to guarantee international and local compliance.

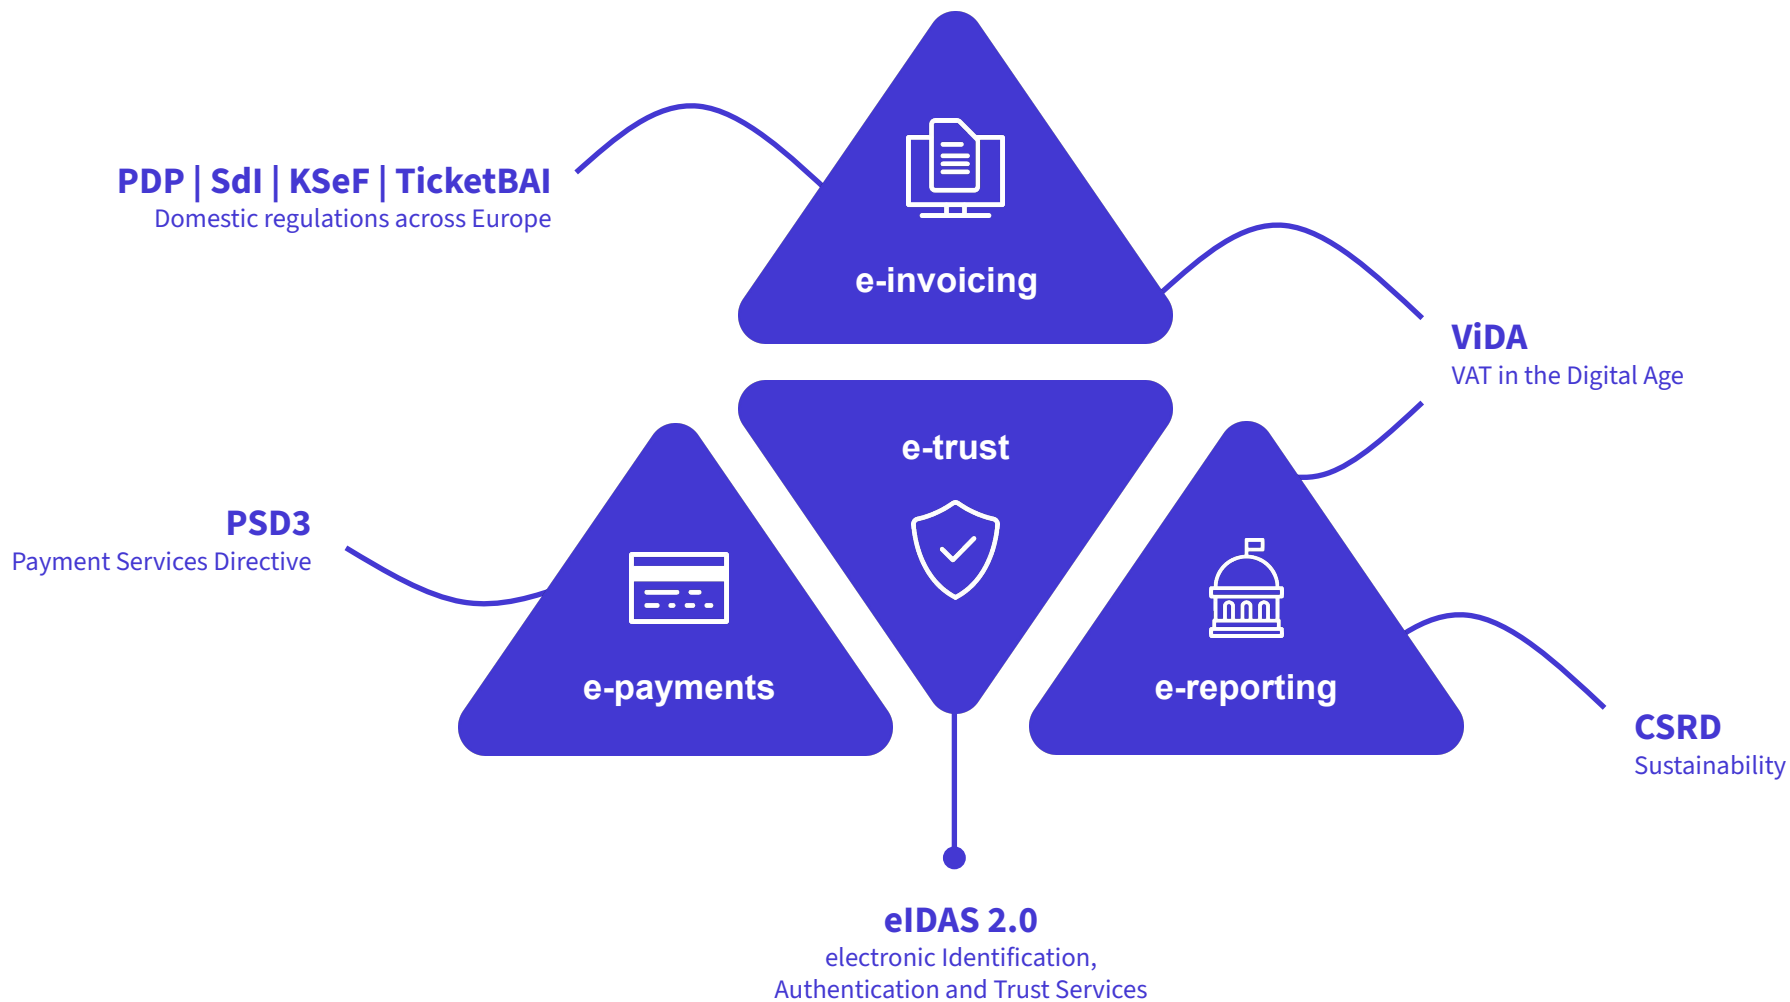

Connections to clearance platforms

Continuously implementing changes in regulatory frameworks, while connecting to global clearance platforms, partly developed by Unifiedpost Group.

Local expertise

Our **local presence** and relationships provide us with fast and quality information about upcoming regulatory changes.

Impact on payments

Some tax authorities have raised the bar by demanding rapid payment status updates, often within 48 hours of the transaction. Swiftly reconciling transactions with invoices becomes paramount to adhere to stringent reporting timelines.

Impact on tax determination

Electronic reporting gives tax authorities the possibility to swiftly adapt tax rates and rules to suit the nation's changing needs, meaning that correct tax determination will become a challenge for all businesses.

Impact on identity

Electronic invoicing and reporting requires strong identification of both seller and buyer. Trust must be established between business partners and between the business and the tax authorities.

Choosing the right e-invoicing provider

	EDI providers	Compliance providers	Unifiedpost Group
Document format conversion	x	x	x
Enrichment of documents with matching master data	x	x	x
Procure-to-pay and order-to-cash automation	x	x	x
